One-of-a-kind DESIGNS

A stunning showcase from top designers

Sophisticated style

Interior designer, Lori Morris created a sea, sand and sky inspired luxury destination dubbed "Castle Beach"; part fantasy, part dream, in a 12,500 sq. ft., five-bedroom grande dame residence where sexy French style caresses the senses in a cool and edgy style.

Comfortable, easy living with every imaginable amenity was the prerequisite for this beauty by the sea, where family and friends gather to reconnect for good food, entertainment and music.

There is a bejeweled mosaic-tiled pool floor, created especially for the clients' discerning tastes.

Traveling back and forth from Canada, Morris and her team at the House of LMD created custom furniture, cabinetry, millwork, carpets and the wrought iron for the door, much of which was specifically designed and created for this space with each detail scrutinised for its luxurious stature and unwavering timelessness.

Vaulted ceilings and carved mouldings rise above the hallway in splendour. The House of LMD sets the tone for elegance with sleek, vintage Deco cabinetry. The kitchen features carved tracery and an enamel and brass oven hood reminiscent of the Second Empire. There are also clean unobstructed sightlines, visually unifying the kitchen, family room, games room and entertainment space.

The whiskey lounge features stealth sapphire opulence, a perfect setting for inspiring conversations. Blue velvet curtains pair perfectly with a custom-made Lori Morris Lion sofa.

But Lori Morris doesn't stray far from the soft and luxurious. The master suite has both his and hers sitting and dressing rooms. Covered in plush pink velvet, the carved headboard is topped with a hand-painted scroll of flowers.
